

BTF staff contacts

Are you aware that each BTF staff member has a specific, personal email address?

Your communication or query will go directly to the relevant person when you select the most appropriate address. The response back will be more prompt, and any issues will be actioned more efficiently.

If you would like to have each address on hand to easily choose the correct recipient, we suggest you include them in your email account contacts/address book.

Your main contacts are likely to be:
