

# Bibbulmun Track Foundation - Honorary Life Membership

## Jim Sharp

**Awarded: 2017**

Jim established and headed up a steering committee within the Department of Conservation and Land Management (CALM) in 1993, to redevelop the track through the *Build a Better Bibbulmun Track* project. Under Jim's guidance the concept became a reality, producing the fantastic Track that we have today.

Jim became an inaugural member of the board of the BTF in 1997 as a representative of the government department responsible for the Bibbulmun Track, firstly representing CALM, then DEC and finally Parks and Wildlife. Having Jim – who eventually became the Director General of Parks and Wildlife – on the Board has given the Bibbulmun Track Foundation the confidence of government interest and support and has ensured that our concerns and advocacy have been taken seriously.

Jim's energy, vitality and enthusiasm for the Track and the Foundation have been highly instrumental in its success.
