

Sue Soord

Awarded: 2025

Susan (Sue) has been a dedicated and inspirational contributor to the Bibbulmun Track Foundation (BTF) since 1998, giving more than 25 years of continuous service as a founding Member. Her involvement began in the Foundation's first office, where she supported Executive Director Becky Shrimpton, and expanded to playing an active role in countless Foundation events and initiatives, including community festivals, Track events, and promotional hikes with sponsors.

Sue has maintained one of the more remote and challenging Track sections near Walpole for nearly 15 years and has contributed to major restoration projects at Boat Harbour and Lake Williams through the Support Volunteer team. She has also been a reliable source of help for other volunteers, often travelling long distances to assist wherever needed.

Her commitment extends beyond fieldwork. As a Parks and Wildlife volunteer, she undertook the significant task of digitising and cataloguing thousands of historic Bibbulmun Track and Munda Biddi Trail slides—"preserving this invaluable record for future generations." She has also supported logbook data entry, large-scale event logistics such as the 25th Anniversary Walk, and volunteer recognition days across multiple districts.

Known for her professionalism, enthusiasm, and kindness, Sue is consistently the first to arrive and the last to leave, giving tirelessly to ensure the Track remains a source of joy and inspiration. Her generosity, humility, and deep commitment to the Foundation's mission have enriched the volunteer community and strengthened public appreciation of the Track.

Through more than two decades of exceptional service, Sue has made a profound and lasting contribution, making her truly deserving of Honorary Life Membership.
