

Current Maintenance Opportunities

(Aug 2026)

We are currently recruiting for volunteer placements in the following sections:

(Section ID) Endpoints				
DBCA District	Length (km)	Campsite	Vehicle requirement	Extra information
(TS075) Old Gordon Road to Graphite Road (One Tree Bridge)				
Donnelly	6.3	-	2WD adequate	1-2 people required (relinquished by previous volunteer)
(TS099) Laws Track gate to Chesapeake Road bridge				
Donnelly	10	Gardner	4WD required	2+ people required (relinquished by previous volunteers)
(TS100) Chesapeake Road bridge to Intersection of Lake Road/Maringup Road				
Donnelly	5.5	-	2WD adequate (?)	Refer to next section; otherwise 1-2 people required
(TS101) Intersection of Lake Road/Maringup Road to Maringup Road				
Donnelly	5.6	Lake Maringup	4WD required	2+ people required (relinquished by previous volunteers). The 3 consecutive sections south of Chesapeake Road have been cared for by a group using the campsite as a base for Track maintenance in both directions. This has worked well and will be supported if you are willing/able to do that. Following a major fire (early 2025), vegetation is still very thin and regrowing slowly; to start with, there will be minimal clearing work for these 3 sections.
(TS102) Maringup Road to Chesapeake Road				
Donnelly	6.1	-	2WD adequate	Refer to previous section; otherwise 1-2 people required

(continued...)

(Section ID) Endpoints

DBCA District	Length (km)	Campsite	Vehicle requirement	Extra information
